SAVE UP TO £36 WHEN YOU BUY OUR VINTAGE TRV KIT WITH ANY ANCONA® ORDER* QUOTING **PROMOV2** AT TIME OF ORDER
Chrome only

Our Ancona® radiators can be curved to fit bay windows and around columns.

Alternative heights are available on request, please contact us on **01342 302250** if required. Radiators can be curved using up to 40 sections, minimum 10 sections (450mm).

As with all radiators it is essential to know how much heat you need to keep your room comfortable, use our online Heat Output Calculator to work out how much heat you will need for your room before you size your radiator.

Curving is a precise process and as such accurate measurements and calculations must be made and checked before production can begin. Since our Ancona® Curved is made on a bespoke basis to your exact requirements we have created an online tool to help make the process as easy as possible;

To order your curved radiator follow these simple steps;

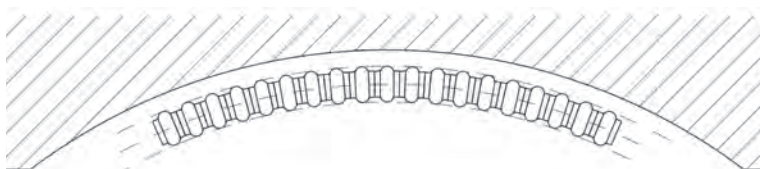

- 1 Go to our website www.theradiatorcompany.co.uk and select the 'Curved Ancona®' in the steel multi column section, download or read the specification document which explains how to measure for your curved radiator
- 2 Use our online Curved Radiator Builder by filling in all the sections
- 3 When you have reviewed the technical specification, double check everything is correct to see how your radiator will fit in your space
- 4 Print the technical specification and sign all pages once you are happy with the details
- 5 Use the signed specification to place your order with your Installer or local merchant

Alternatively, you can complete the Specification Instruction sheet with the dimensions of your bay or column and return it to us via email, fax or post (please see contact details below). However, this will take extra time for us to have drawings made and then sent to you for approval before any order can be placed. **Please note; once you have signed off your drawings and ordered your curved radiator it may not be cancelled or returned.**
