2 column 1035mm x 690mm in Primer with footed ends and Chrome Vintage TRV's.

Cast Iron

Our cast iron range includes a choice of ornate and plain school house designs. Available in a choice of finishes including painted polished and burnished cast iron radiators can be specified by section so you can choose the right size for your space.

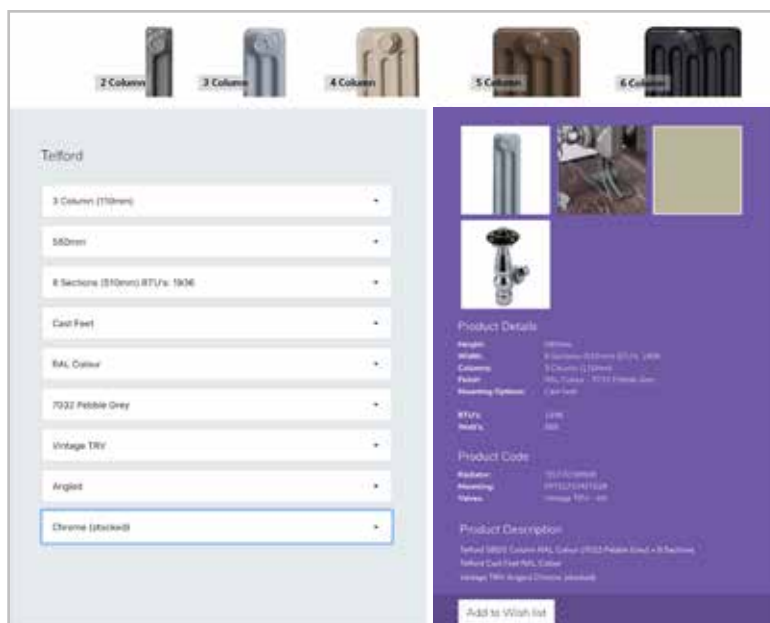

SAVE UP TO £36
WHEN YOU BUY OUR **CHROME VINTAGE TRV KIT** WITH ANY CAST IRON ORDER* PLEASE QUOTE **PROMOV2** AT TIME OF ORDER

*Saving based on the value of individual items when bought separately. Order any of our selected valves and matching pipe covers at the same time as your radiator.

Choose your radiator using our online radiator builder

Once you know your outputs use our **online radiator builder** to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website www.theradiatorcompany.co.uk

It is vital to know the correct heat output you need to keep your room warm, use our online Heat Output Calculator to get a guide to your requirements which you can then check with your installer.

Once you know your outputs you can also use the brochure to specify your radiator by following these steps (or call our Customer Services team on 01342 302250 who will help you size your radiator)

- Note the space you have in mind for the radiator(s) you need; vertical or horizontal, length, height & depth
- Select a column option and height that fits your space; Calculate the number of sections you need by dividing the required BTU (Watt) output with the output per section; e.g 1913 BTUs divided by 328' = 6 sections, based on 4 column, 580mm high sections (always round up to the next whole number of sections)
- If using that section size doesn't work in the space available, try a different column option or if possible a different height
- Once you have calculated the best number and size of section, select the best mounting option and kit; footed end section, cast feet or wall brackets. For the Telford you have the option of footed ends, cast feet or wall brackets. Ledbury is available with footed ends as standard, wall brackets are available on request. Uxbridge, Aston, Trieste and Linton ranges are only available with footed ends.
- Your cast iron radiator can be painted in a selection of the most popular colours from the RAL range, special finishes, in a polished or burnished finished (Trieste) or a lacquered finish. Please specify your chosen colour at time of order. Please note: as a result of the casting process, cast iron radiators have a rough surface finish with small imperfections which will show after the painting process.
- Work out the price of your radiator; e.g *Telford 4 column, 580 high, 6 section, RAL 7044 - Silk Grey* = £86.35 x 6 = £518.10 + *Cast feet Kit (2)* = £91.20 - *Total* = £609.30
- Place your order with your local Merchant using the sectional model code x No. of sections needed, noting the mounting option and the name and number of colour you have chosen; e.g *TELF4C58 x 6 sections, RAL 7044 Silk Grey with cast feet*
- If you have chosen a colour make sure you list the colour number and name

All prices and outputs are given per section in the tables on pages 187-193. Price per section includes plugs, bushes and diverter. Mounting options must be selected separately, these will include the air vent and appropriate number of wall ties.

Telford shown on pages 78-79

Please specify your finish at time of order

Joining Keys

Cast iron radiators come assembled up to a maximum of 10 sections. Radiators larger than these will require on site assembly using an appropriate Joining Key.

- The Basic key is for joining up to three 2, 3 or 4 column radiators, consisting of two blocks of sections to make one radiator. For more than 3 radiators you must use the Heavy Duty Joining Key available on a sale or return basis.
- The Heavy Duty joining key must be used to join all 5 or 6 column radiators and any radiator (2, 3, 4, 5 or 6 column) requiring more than two individual blocks of sections to be joined to make one radiator, or more than 3 radiators, in order to create the consistent torque required for a water tight seal.
- The Heavy Duty Joining Key is available on a sale or return basis.** Joining Keys must be specified at time of order for assistance please contact our Customer Service team on 01342 302250, they will also arrange a courier to collect it from you when you are ready.
